

## Council Gets Offers For Town Property

Also Notified by the Commission To raise Additional \$2000 in Taxes This Year

Judging from applications for property and lots in town that are still coming in to the town council the town has promising prospects for big business in the real estate line this year. The following applications were read at the council meeting Monday evening.

D. McLachlan wrote offering Council \$10.00 a month for upstairs of building on corner of Third street and Avenue. The offer was accepted.

Bert Allison wrote offering \$10. a month rent for old Bott office on Fifth street. Sam Schneider also wrote offering \$450 to purchase this same building, and \$250 for the old garage on Third street. Both offers of Mr. Schneiders were accepted on motion of councillors Dacre and Shaw.

J. A. Oldfield wrote applying for lots in the West end of town for current taxes. The offer was accepted. Mr. Oldfield intends moving a house onto these lots.

John Cain wrote offering \$200 for house on Third street at present occupied by Mrs. Ferguson. The offer was accepted on motion of councillors Shaw and Brydie.

Robt H. Johnson wrote offering \$35 for old building on third street just north of the hotel. The offer was not accepted but it was decided to advertise for offers for this building.

The Mayor informed council that inquiries had been made regarding the price asked by the town for buildings previously occupied by the Ornamental Iron Work and the Truck factory. After some discussion concerning the price it was decided to ask the Applicants to submit their proposition to the council in writing.

Letters were read from the Workmen's Compensation and the Utilities Commission re funeral expenses for the late Peter Hurlbert, pointing out that no arrangements could be made at present for same, and asking for further particulars. Another letter was read from the Utilities Commission drawing attention of council to the fact that they would have to raise an additional \$2000 in taxes this year to meet the town's obligations.

There were several application for relief. These were allowed and it was also decided to file caveats against property, the owners of which were getting relief from the town.

Mr. McLeod sent a bill to council for board for Mr. Craig. The bill amounted to \$12.00 to 16 days board. On motion of councillors Dacre and Champ, Mr. McLeod was allowed the usual rate set by council for relief. The usual monthly accounts were approved for payment.

The rain which struck here last Monday was general over the province. The snow six inches of snow fell between Glischen and Calgary.

Miss Juliet Johnson, of the High School Staff, Maple Creek spent last week end in town the guest of Mrs. E. H. Sullivan. Miss Johnson spent her childhood days in Redcliff when her parents resided here.

## Mrs. David Miller Passed Away Saturday

Funeral Held Last Saturday Was Largely Attended

Mrs. David Miller of this town passed away at her home here last Saturday, April 12th.

Although it had been known for several days by those near and dear to her that the silver cord was rapidly being loosed and that at any moment the golden bowl might be broken, the news of her death came as a great shock to her many friends and cast a sorrowing gloom over her devoted husband and family of little ones.

The late Mrs. Miller was referred to by those who knew her leg as a mother and wife who was completely wrapped up in her home. This was clearly shown even in her last hours in the flesh when her will, concern was for the well being, comfort and happiness of her husband and children.

A few weeks ago the late Mrs. Miller had an accident as a result of which it was necessary for her to undergo an operation when it was found her condition was very serious. For a time hopes were held out for her ultimate recovery but the patient gradually weakened until the end came.

Deceased was born in Hill City South Dakota, 41 years ago. In 1901 she came to Canada with her parents, Mr. and Mrs. F. M. Hurlbert, and in 1907 she was married. In 1918 she came to Redcliff and has resided here until the time of her death.

Besides her husband deceased leaves six children: Nellie, Edwin, Charles, Irwin, Roy and Lloyd, her father, F. W. Hurlbert a brother Ben, and a sister, Mrs. Bert Sheldon all of Redcliff, and four other brothers, and a sister, Mrs. Tom Hitchen formerly of Redcliff.

The funeral which took place from the Brethren Church last Monday was largely attended. Rev. I. M. Zeigler officiating. The remains were interred in the Medicine Hat cemetery. The large number of floral offerings testified to the high esteem in which deceased was held among her large circle of friends.

Mr. John Muir at one time in the land office at Medicine Hat died in Lethbridge last Monday.

## Local Items

J. W. Swann, of Medicine Hat died last Saturday. He was 73 years of age.

Mrs. W. S. Jones arrived in town last week end to visit her daughter, Mrs. Joe Podesta.

FOR SALE—A good white Enamel Gas range, late style, cheap for cash. Apply at Review Office.

Mr. and Mrs. J. Kitchen and Mrs. R. S. Dodge motored to Calgary last week end and spent a few days there visiting friends.

Seventy-five head of the finest pure bred stock arrived from England, for the Prince of Wales' ranch near High River.

The Brick and Coal football team goes to Medicine Hat Friday afternoon to play a friendly game with the Legion team.

As Friday of the will be Good Friday and a public holiday through Canada all the stores in town will be closed that day.

Mr. and Mrs. Tom Hitchen of Estwan, were in town this morning attending the funeral of Mrs. Hitchen's sister, Mrs. Miller.

Little Lorraine, the one month old daughter of Mr. and Mrs. A. R. Ballantyne, died suddenly last Sunday morning. The funeral took place on Tuesday from St. Ambrose Church to Medicine Hat cemetery.

Mrs. A. E. Tester and daughter, Miss Beatrice, left for Calgary last Monday to consult specialists in connection with Beatrice's arm which was hurt some time ago. Miss Orpha Besser accompanied them.

## "Ben Hur" Coming To Cameo Theatre

Few men or women of today and few boys and girls who read at all have not been thrilled by reading "Ben Hur", a book which has been one of the best sellers for the past fifty-five years, and a book which has many years nearly reached the circulation of the Bible.

"Ben Hur" is a tale of the Christ, begins in Jerusalem in the days of the reign of Herod. One of the most unusual facts about this work is that it is the only book of fiction to be blessed by the Holy See.

This book has been pictured and the picture will be shown at the Cameo Theatre next Monday and Tuesday evenings.

The thrill of adventure in many lands is presented by the story of "Ben Hur" as portrayed by Ramon Navarro in the \$4,000 picture of that name. This favorite star fully represents a comely, bold and chivalrous Judah who is by turns prince, galle slave, Roman favorite, chariot racer, soldier of God, and a tax collector and many-sided role. And Navarro is adding myriads of freinds to his already long list of "fans" by his beautiful acting as well as his physical comeliness.

This picture will be intensely interesting and educative to both young and old. Don't miss seeing it. It is said to be one of the best pictures ever produced.

The Review would advise its readers to be sure and see "Ben Hur" which is to be shown at the Cameo next Monday & Tuesday. We have seen this picture. It is a marvellous production of the book of the same name. The management of the theatre should be encouraged in bringing such excellent pictures here.

## Town Assessment Increased This Year

There is Possibility that Mill Rate will be Lower.

Since receiving their assessment notices last week, property owners in town are expressing great surprise and consternation because their assessment has been considerably increased this year and grave fears are expressed about what the taxes will be.

Ratepayers should not get too fearful and excited before the council's revision or until after the tax rate is fixed. If, after the tax rate is fixed, it is found that the assessment on all property in town has been raised a little, it will mean that the total tax assessment has been considerably increased over the past few years. Then if this increase will make it possible to raise "municipal" taxes, then it is only reasonable to expect that the mill rate, which has been 55 mills for the past few years, will be at least slightly lowered.

If, therefore, the council finds it possible to reduce the mill rate a few mills, the chance are that the average taxes will be very little higher this year than last.

Of course there is nothing certain about this at present. In the meantime it would be well to await the court of revision and the setting of the mill rate before becoming seriously alarmed.

The Altar society of St. Mary's church will give an Easter supper in Parish Hall on Monday, April 21st. Supper will be served from 5 to 8 o'clock. Tickets: Adults 50c, Children 25c. Note the chance in the price where supper will be held. \*\*\*

## Stampede Meeting

The annual meeting of the Redcliff Stampede Association will be held in the Legion Club Rooms on Monday, April 21st, at 8 o'clock sharp. A full attendance is desired as officers will be elected and other important business transacted.

J. N. Dacre, President.

## 211 MILL INCREASE IN BRITISH BUDGET

Rt. Hon. Phillip Snowden, Chancellor of the Exchequer, presented his eagerly awaited Laborite budget, estimating expenditures for 1930-31 at £281,000,000 (about \$3,500,000,000). The Chancellor estimated the revenue for the year on the existing basis of taxation at \$779,645,000 (about \$3,698,000,000). Thus the difference he had to make good was \$242,645,000 (about \$211,000,000).

Hens running at large are now becoming a nuisance. Those owning hens should think of others who are trying to have gardens and lawns.

## Churches

CHURCH OF BRETHREN  
Rev. Ira M. Zeigler, Pastor  
Services every Sunday.  
Sunday School 10:30 a.m.  
Morning service 11:30  
Evening service at 7:30.  
Choir practice every Thursday evening at 7:30.

Everybody welcome. A special invitation is extended to those who have no church home or do not attend any Sunday School.

Service will be held on Good Friday evening at 8 o'clock. The meaning of Easter will be the topic.

ST. AMBROSE CHURCH  
Rev. J. L. Cooper  
Sunday before Easter, April 3  
Holy Communion at 8 a.m.  
Sunday School 10 a.m.  
Mattins and sermon 11. Subject: "Railway Officers".  
Evensong and sermon 7:45. Subject: "Jesus' Must of Suffer."

GOOD FRIDAY—Liturgy 8. Children's service and address 10. Mattins, anti-communion and sermon 11. Evensong and sermon 7:30.

EASTER DAY—Holy Communion 8. Mattins 10. Choral Eucharist and sermon 11. Children's service, carols and hymns 3. Evensong & sermon 7:30.

It is not yet known whether there will be service on Sunday, April 27th but due notice of any such service will be given later.

ST. MARY'S CHURCH  
Celebration of Mass second and fourth Sunday of each month at 8:30 a.m.

JORDON MEMORIAL UNITED CHURCH

Rev. W. R. Smith, Pastor  
10 A. M. Church School.  
11:15 A. M. Morning Worship.  
1st Sunday.

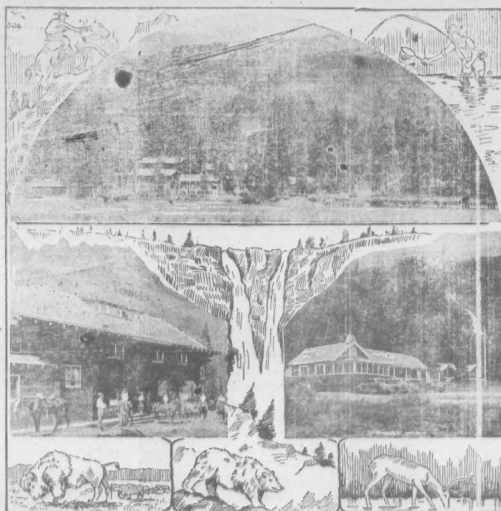

7:30 P. M. Evening Worship.  
EASTER, April 20th 1930.

10 A. M. Church School.  
11:15 A. M. Morning Worship and Sacrament of Lords Supper.

7:30 P. M. Service of Praise special Easter numbers by the choir.

Good Friday services at 8 P. M. Tom Hynthebor, Secretary of Boys' Work Board of Alberta will speak April 27th.

## Bungalow Camping in Rockies

Spring is here, according to the calendar, though you may not otherwise have noticed it, and with the spring the thought of vacation begins to gather strength. In another month or six weeks the long low ranges of the Rockies, famous the world over for their beauty, will have opened again for the season. Outstanding among them are the Lake O'Hara Bungalow camp (lower left), just behind Lake Louise, Yoho camp (lower right), under the foot of the Takakkaw Falls; and Emerald Lake (upper), by many considered to be the gem of the Rockies, although artists and others will often contend that Lake O'Hara is a close rival. Says of the spring the thought of vacation begins to gather strength. In another month or six weeks the long low ranges of the Rockies, famous the world over for their beauty, will have opened again for the season. Outstanding among them are the Lake O'Hara Bungalow camp (lower left), just behind Lake Louise, Yoho camp (lower right), under the foot of the Takakkaw Falls; and Emerald Lake (upper), by many considered to be the gem of the Rockies, although artists and others will often contend that Lake O'Hara is a close rival. ## Glowing Future For Canada

Reflection Made by Official of French Steamship Line

A glowing future for Canada is foreseen by Maurice Tullier, of Paris, France, managing director of the French Steamship Line. "Our belief in the future of the country is so substantial that we have just inaugurated a new north Pacific service with Vancouver as the head port," he said, on a visit to Ottawa after a month's tour of this country.

The new Pacific service, running via Los Angeles and the Panama Canal to Havre, France, involves expenditure of a great many millions of dollars, Mr. Tullier said. The flagship of the fleet of eleven vessels will be the S.S. Winnipeg, largest ship of its type to enter Vancouver harbor, which Mr. Tullier described as "a wonderful harbor."

"France needs a strong navy to protect her shipping and her far flung colonies," he declared in briefly discussing the London naval conference. France, economically speaking, is today not far from being back to pre-war status. Mr. Tullier said that there being little or no unemployment in the country. The attitude of the French people in France toward England is so warm today, he said, on the day of the armistice.

## Cost Of Raising Calves

Experimental Station At Lechbridge Figures the Cost At \$32.73

The cost of raising a calf into a well grown three year heifer is found to be \$32.73 by the experimental station of the Dominion Department of Agriculture, at Lechbridge, Alberta. This figure is arrived at from the cost record of nine calves from an average of thirty-eight days to an average age of thirteen months.

The total feed cost for the nine head of dairy calves was \$29.40. They were fed 6,570 pounds of whole milk priced at \$1.40 per cwt., \$94.50, 11,985 pounds of skim milk at .25 per cwt., \$29.97, 2,733 pounds of Imperial Palm fat mixture at \$2.50 per cwt., \$68.78; 2,601 pounds of oats at \$1.50 per cwt., \$4,500; 20 pounds of hay at \$1.50 per cwt., \$3.00; 20 pounds of pasture at \$1.50 per cwt., \$3.00; and on stubble pasture 14 days at 25 cents per head, per day, \$3.50.

## Has Become Important

Gdynia Is Poland's New and Only Modern Seaport

"What, never heard of Gdynia, in the Baltic?" said the insurance man rather haughtily at the club luncheon table. Four of us admitted we never had, writes "Lookers-On" in the London Daily Chronicle. Indeed, we weren't down upon the existence of such a port. Yet he declared he had been effecting insurance on cargoes to it for some time past. We looked it up in an atlas. No mention of it. "He must have seen the Polish name for Danzig, which is Gdynia, and got confused," we said. Yet next day he turned up with cutting about Gdynia from a shipping paper. "You see it was a fishing village with 500 inhabitants. Now it is a fully equipped modern seaport. It is Poland's only one. That is why they have built it so quick about making it."

## Not Liable To Change

"What's the idea?" bellowed the policeman to the stalled motorist. "You've been parked here more than an hour."

"What's the idea yourself?" rejoined the motorist. "I can't go ahead until the traffic signal turns green."

"Well, make yourself comfortable for a long wait," said the policeman. "That red light on a fire box."

Mother—Why are you so unkind to nurse? Don't you like her?

Child—No. I hate her. I'd like to pinch her cheek, like daddy does.

"I am always ill the night before a journey."

"Then why don't you go a day earlier?"—Gulliver, Madrid.

W. N. E. 1219

## Building Up Bee Colonies

Transportation Of Bees By Package Proving Satisfactory

One of the most effective ways of building new colonies up to full production strength is the importation of package bees. C. B. Goodenham, 384-4, like Dominion Agriculture, in a pamphlet on package bees, now available at the Publications Branch of the Department of Agriculture, states that the transportation of bees by package is proving quite satisfactory, and may be done safely anywhere in Canada. With proper care and management they will build up into strong producing colonies the first season.

In the provinces and other areas where the main honey flow comes late, there is a longer building up period and package bees will often equal overwintered colonies in production. In regions where the main flow comes early package bees are unable to build up to full strength before the flow starts and cannot be expected to store such large crops.

A development of importance in this connection is the establishment of the fact that it is now possible to transport package bees without cost, the advantage of the method being that it prohibits the possibility of the introduction of disease. While the bees are in the package they are free from disease, while the bees with bees already established on colonies, at least, it is certain that his bees will be free from disease.

When purchasing package bees it is extremely important that the hives should be ready to receive them when they arrive, and also that there is a sufficient continuous supply of food for the bees until they can gather enough for themselves.

## Frozen-Pack Strawberries

Frozen Berries Can Be Used As Fresh Fruit In The Winter Months

Some rather interesting and apparently satisfactory results are reported in connection with recent experiments relating to the cold storage handling of strawberries.

A feature at the Royal Agricultural Winter Fair last year, was the fine appearance and quality of apples from fresh Canadian-grown strawberries as an item on the menu of the All Canadian Products Dinner. These berries had been grown in British Columbia in June, and had been kept in a frozen condition in cold storage.

An Ontario grower, who recently received a consignment of the same pack of berries, which they report were in good condition.

The surplus crop of strawberries was sent by the British Columbia growers to the Government Experimental Plant, where the fruit was washed and graded under government supervision, packed in barrels with crushed ice and then put in cold storage where they have since been kept at a temperature of 15 degrees below zero. The last year's pack amounted to 2,100 barrels.

The result of this experiment indicates that the berries kept sufficiently long to be used as fresh fruit and marketed as a really first class article.

## New Land Map

Crown Land Still Available In Each Township Is Shown

The Department of the Interior has issued a new edition of a land map which shows at a glance the total number of quarter sections of Crown land still available in each township. The map also indicates Dominion land (O.C.A.), existing railway facilities in each district and provides the customary information regarding cities, towns and villages.

A copy of this map together with other material of interest to the prospective settler and then put in cold storage where they have since been kept at a temperature of 15 degrees below zero. The last year's pack amounted to 2,100 barrels.

The result of this experiment indicates that the berries kept sufficiently long to be used as fresh fruit and marketed as a really first class article.

## Needed The Time

Johnnie—Why will you get my watch fixed today, sure?

Mother: "Why are you in such a hurry?"

Johnnie: "Because I am secretary of the Safety Council and the teacher says I will have to keep the minutes tomorrow!"

## Gave Her Credit

A girl met an old flame and decided to high bid him.

"Sorry," she murmured, when the hostess introduced him to her, "I didn't get your name."

"I know you didn't," rejoined the old flame, "but you tried hard enough."

Arabs setting out on a long journey lay in rations of "bread dates," which are sugary varieties that keep indefinitely.

Twenty-five miles of spider thread would weigh only eight ounces.

## The Story Of Mike

Little Crippld Indian Boy Who Is Being Helped By The Red Cross

One of the inmates of the Junior Red Cross Hospital, in the capital city of Edmonton, Alberta, is a little Indian lad of the name of Mike. He has a little story to tell of how he came to be in the wards of the hospital, for his own home is in the wilds of the hinterlands of the North. His people are of the wandering tribes that make their living by trapping and fishing. One day their tents were pitched in a little town by the banks of a wide river, where people kept in touch with the world outside by means of a radio. One observed how lonely would the many aerials that hung above woodland cabins, like spiders webs around the trees.

One of the hunters heard a weekly feature program of the Red Cross, with special reference to the work in Alberta of the Crippled Children's Hospital. The lad who had never walked, and lay in a tepee in the woods came to her mind at once, and he resolved to see what could be done.

One day he had Mike join him on the ground, but his mind had never been trained to read or write, and he never had set foot inside a school-room at all. The little lad was the ground, but his mind had never been trained to read or write, and he never had set foot inside a school-room at all.

You will find him in a clean white coat, looking bright and alert, and he will tell you that he is learning to read and write, and that his body is getting better day by day, and soon, when he gets his plaster jacket on, he will perhaps be able to get quite well and strong again like other lads, for the words of the Junior Red Cross Hospital hope springs eternal.

## Plays Organ In Notre Dame

Sixteen-Year-Old Girl First Woman To Touch Instrument

A woman, for the first time, has played the great organ of Notre Dame Cathedral, an instrument two centuries old, and played at Napoleon's coronation.

The woman, really a girl, Renee Nizan, 16 years old, but already a noted organist, often applauded at concerts.

Even during the days of the Revolution, when Notre Dame was sacked and turned into a "Temple of Reason," with a ballet dancer receiving there as "Liberty," and later during the Commune, no woman, so far as recorded, ever touched the old organ.

A Prayer For Materials

The Christian Register prints the words of Harry McCreary:

"Teach us to drive through life without shuddering at other people's business. Preserve our brake lining, that we may stop before we go too far. Help us to hear the knocks of our own motors and close our ears to the clashing of other people's gears. Keep alcohol in our radiators and out of stomachs. Absolve us from the mania of trying to pass the other automobile on a narrow road. Open our eyes to the traffic signs, and keep our feet on the brakes."

"How did your article on perpetual motion turn out?"

"It's a success. Every time I send it out it comes back."

"You is like insurance; the older you get the more it costs you."

## MR. HAROLD F. RITCHIE Pompeian Company Bought By Well Known Group

Group Headed By Harold F. Ritchie and F. M. Shoemaker, Purchases the Famous Pompeian Line From Calgate Palmolive-Peet Company

Details announcement has been made that the advertising of the company has been purchased from the Calgate-Palmolive-Peet Company by a group of individuals well known to the Drug, Department Store and Toilet Goods Trade, consisting of: Mr. Harold F. Ritchie, of New York and Toronto, Canada; (President of Harold F. Ritchie and Company, Inc., New York, Toronto, Canada; and the British Harrold F. Ritchie & Co., Ltd., of London, England; Toronto, Canada; Sydney, Australia; and Wellington, New Zealand; and also President of International Proprietaries, Ltd., owners of Roul's Fruit Salt and Thermafol, and Messrs. F. M. Shoemaker, Guy S. Harrold, and S. S. Shoemaker, of Elmira, N.Y. (successors of the Proffitts Company).

Negotiations have been going on steadily for the last several months, and the new owners took over the management of the company on March 1, 1930. The plans are now being carried out for the immediate future. Further announcements will shortly be made concerning the new moves and increased selling and advertising program.

The Pompeian Company was originally a Cleveland Company, headed by Mr. Stecher, Mr. Otto P. Leopold and Mr. W. W. Wheeler. Operations were carried on from Cleveland for a great many years, and the Pompeian Company became one of the largest in the Toilet Goods Field, with an outstanding reputation and an enviable following. The original item on which the business received its great impetus was the famous Pompeian Cream.

This item developed at a point where it dominated the entire field of Massage Creams—and even today is considered to be alone in its class. Pompeian Massage Cream spread to every corner of the world—and carried with it all other Pompeian toiletries, among which are the Pompeian Beauty Powder—Pompeian Bloom (in metal box rouge)—Pompeian Day Cream and Pompeian Night Cream.

Early in 1927, the Pompeian business was purchased by Calgate & Company, and the factory moved to Jersey City, N.J. Later, after the merger of Calgate and Palmolive-Peet, the company was approached and negotiations for the purchase of the company were entered into. The sale of the Pompeian Company to the mentioned group was consummated in the sale of the Pompeian Company to the mentioned group.

The line is well known to Mr. Ritchie and Company in Canada, and the company in Canada acted as sales agents for Pompeian products in Canada and several countries in the foreign field up until the time that Calgate & Company purchased it.

The Shoemaker family have enjoyed their reputation as expert manufacturers for a period of fifty years.

## TRAGEDY OF THE NORTH

The photographs here show figures of the life at Cross Lake, near The Pas, Manitoba, Feb. 24, when an Indian mission school was burned, claiming the lives of the Sister Superior and nine of the little charges. (1) The Indian mission school at Cross Lake, Manitoba, scene of the fire. (2) Sister Superior Margaret of Mary, who lost her life in a heroic attempt to save children here in a canoe with some of her little Indian proteges, and (3) another photograph of Sister Superior Margaret of Mary, who perished.

## Preparing For Taking Census

Next Decennial Census Will Be Taken In 1931

Preparations are being made for taking another decennial census in Canada. It is to be taken in 1931.

Credit for taking the first modern and scientific census is claimed by Canada. This was taken at the actual of New France, in Canada, in 1666. It was a systematic "nominal" enumeration of the people, taken on what was known as the "de jure" principle, of a fixed date, showing age, sex, occupation and housing and family composition. That census received 3,235 souls.

The census to be taken in Canada next year will give employment to 15,000 people, or about five times as many people as the entire population of Canada when the first census was taken. They will cover the extensive areas of Canada from the Atlantic to the Pacific, and from the International Boundary to the Arctic. The actual work of enumeration will begin in June, 1931, under the direction of the Dominion Government Bureau of Statistics.

The first classification in the census is by sex, and then by the country. The next is births and deaths. Then the migrations of the people, sex, age, nativity, occupation, etc., are recorded. Social statistics is a third classification. This includes production in all its forms, mines, transportation, marine fisheries, and agriculture. There are 36 main headings and 57 sub-section headings.

The big problem is to co-ordinate that is, to get all the statistics to fit in with each other and make a whole. One of the significant uses of statistics enable various kinds of modern life to be observed. For example, statistics show that the average expectation of life in the United States has gone up eight years during the 20th century.

The first census of the Dominion was taken in 1871, and similar censuses have followed in every tenth year.

## Two Thousand Years Old

Footprints Of Dog Found On Bricks From Roman Wall

A great deal of interest has been caused in London by the discovery of the footprints of a dog, which were taken from the wall of an ancient Roman building. When "excavators came upon this wall, some of the bricks of which it was constructed, were taken as specimens to the museum, at the Guildhall, and when the mortar had been scraped from one of them—a huge brick, 17 inches in length, and 12 inches across, and two small bricks, the imprint of the feet of a dog were found. They must have been made nearly two thousand years ago.

As the bricks, after moulding, lay on the ground to toughen, before being burned, this dog must have run over them. Two of the footprints are close together, suggesting that the dog was chasing something, or being chased. It might have been a Roman cat. It was certainly not a rat, for there were no rats in London at the time of the Romans.

Many dogs have chased many cats since London first rose beside the Thames, and many more will doubtless do so, but few will leave a record of the chase to be read 2,000 years later.

## Peru Accepts First

The first acceptance of the invitation to participate in the World's Grain Exhibition and Conference to be held in Regina, in 1932, comes from the minister of foreign affairs, Peru, on behalf of the Peruvian government. Matters of detail as to the manner in which this country will take part have been referred to the department of works and communications.

A scientist declares that many animals laugh. They could hardly help it if they observed people closely.

She: "Why hang up your stocking? Christmas is long past!"

Her: "I know, but I thought some kind fairy might send the boys!"—I 420, Florence.
